JUL 17 2006

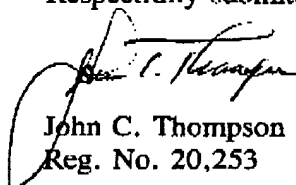

Remarks/Arguments

By the present amendment rejected claims 7, 11, and 12 have been cancelled. Thus the only claims now before the examiner are allowed independent claims 5, 9, and 15 and dependant claim 16. By the present amendment an unnecessary limitation has been cancelled in the independent claims, which limitation is taught by the prior art as noted by the examiner in the office action dated 11/12/2004. Accordingly, the cancellation of the limitation should not have a bearing on the allowance of these claims.

Thus, the claims now remaining in this application have all been indicated to contain allowable subject matter. Accordingly, the allowance of this application is respectfully requested.

Accompanying this response is a petition for a one month extension of time with the appropriate fee.

Respectfully submitted,

John C. Thompson
